Supply Chain Management

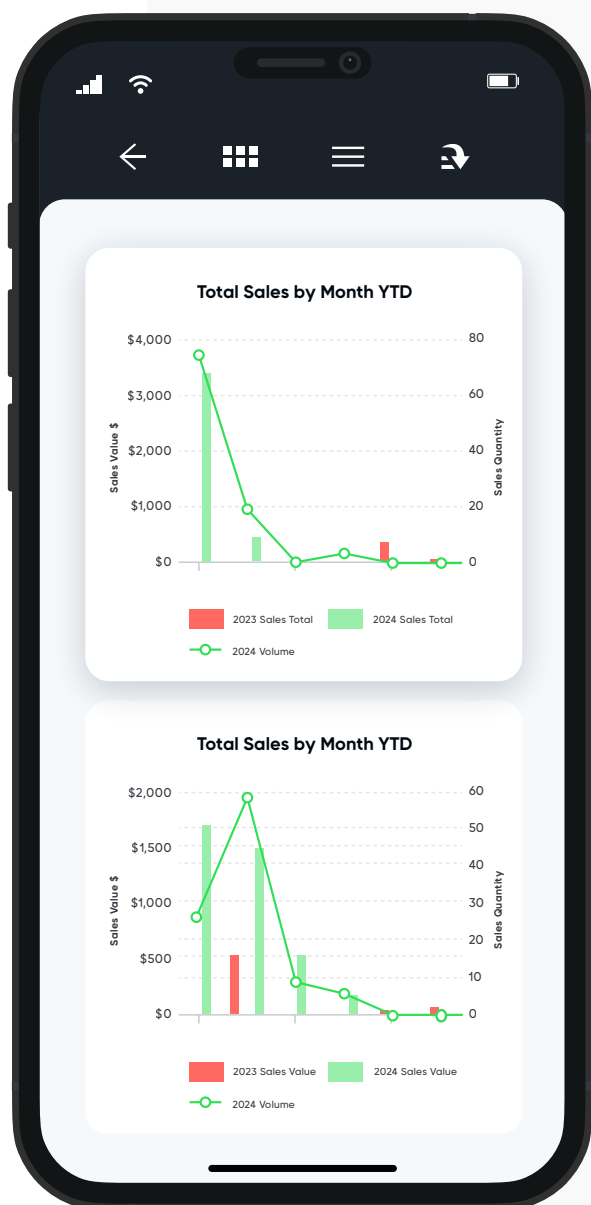

Managing your supply chain is a complex job, but what if there was a simpler way?

Introducing TechnologyOne's Supply Chain Management, a simple, intuitive solution to manage your entire procure-to-pay process, from initial requisition to order approval and receipt of goods, with end-to-end visibility into every stage of your supply chain.

Streamline your entire source-to-pay process, from initial requisition to order approval and receipt of goods and services, with a true SaaS solution that delivers a complete approach to managing the procurement process, enabling you to make strategic sourcing decisions and save time and resources whilst reducing costs.

Transform your supply chain into a streamlined, agile powerhouse by greatly simplifying tasks such as ordering and inventory management, while ensuring compliance with procurement policies through embedded workflows and approvals.

Foster collaboration and enhance supply chain performance with a system that enables seamless communication and data exchange with suppliers.

"Since implementation, the Procurement team have more time to focus on strategic procurement advice to staff and students."

We solve the complex to simplify life for our community

With more than 37 years' experience, TechnologyOne has pioneered Software as a Service (SaaS) for local government and higher education, empowering communities with mission-critical solutions.

Our deep understanding and engagement with our key markets means we are able to deliver integrated, preconfigured solutions that provide proven practice, streamline implementation and reduce time, cost and risk for our customers.

We are the only company offering true global SaaS solutions, harnessing industry expertise, innovative technology and user-centred design to present unparalleled digital experiences.

Our global software enables our customers to embrace the digital revolution and an exciting new world of possibilities in a cloud-first, mobile-first world.

Over 1,300 large-scale companies, government departments and higher education institutions across the globe are supported by TechnologyOne solutions.

Future-proof your organisation with a **true SaaS** solution

Reinvent your system in a way no legacy software can – Software as a Service (SaaS) leverages the latest technology to deliver speed, security and scalability for your community.

SaaS delivers a mission-critical solution that empowers your organisation to provide compelling digital experiences – on any device, anywhere, at any time.

Only through the power of SaaS can your organisation embrace cutting-edge simplicity that offers a single source of truth and ensures your

systems are guarded with defence-level security.

With continual upgrades, including two yearly major releases and weekly patches, empower your community with a best-in-class solution in an ever-changing environment.

Spend smarter

Drive savings by controlling and improving spending patterns and making strategic sourcing, contract management and stock optimisation decisions with one solution to manage the entire process.

End-to-end visibility

Real-time visibility into every stage of the supply chain from procurement to delivery gives you instant insight into expenditure and risk, ensures transparency for managing inventories, predicting shortages or delays and making informed decisions quickly.

Simplify your supply chain

Strengthen supplier relationships and drive strategic procurement decisions by easily managing the entire source-to-pay process, contract management and inventory as efficiently as possible.

Make data-driven decisions

Make better buying decisions faster, easily identify saving opportunities and negotiate strategically with suppliers using a series of powerful, dynamic dashboards displaying real-time supplier information, evaluation performance data and purchasing trends from across your supply chain.

Reduce errors and discrepancies

Increase efficiency and accuracy with an integrated solution that enables you to automate processes and embed workflows. Remove paper-based processes, data entry duplication and reduce the likelihood of errors.

Always up-to-date

Your organisation will be at the forefront of innovation with continual and automatic upgrades and releases all covered by one annual fee.

Secure & scalable

The highest security and privacy measures and scalability for future growth. Trusted by top Australian and New Zealand governments, authorities, businesses and education providers, our stringent cyber security safeguards data and protects your systems.

Seamless supply, limitless success

From navigating global disruptions like natural disasters to managing intricate supplier networks, organisations today are grappling with multifaceted challenges when attempting to navigate the complexities in modern supply chains.

Managing a diverse portfolio of assets, from basic office supplies to sophisticated high-value equipment across multiple locations necessitates the need for robust supply chain management to ensure transparency, efficiency and cost-effectiveness when it comes to spending.

These systems are essential for modern organisations to easily get a clear picture of the supply and use of goods and services, assess risks and plan ahead for purchasing decisions.

Supply Chain Management

Supplier Management

Save time and boost efficiency by giving suppliers access to a simple self-service supplier portal to manage their account, tender and contract information and enable easy two-way communication.

Contract Management

Eliminate manual paperwork and automate processes with an integrated and centralised system to manage the full contract lifecycle with flexible contract types built for your organisation's requirements.

Procurement Management

Transform your procurement process into a strategic and proactive operation with streamlined contract management, integrated procurement policies, commitment tracking and automatic supplier interactions.

Inventory Management

Automate, streamline and simplify inventory management with integrated mobile device barcode scanning, automated stock replenishment and predefined approval workflows.

Grants Management

Streamline grant applications and maximise your revenue with a centralised platform allowing a single process and lifecycle view of every grant program your organisation manages.

Analytics

Better understand your supply chain operations and identify ways to improve efficiency, reduce costs and manage risk and compliance with real-time data insights and simplified reporting.

The highest level of cyber security

Secure your digital environment and reputation against threats with stringent protection across your systems.

Through the power of SaaS, continuous and automatic upgrades ensure your organisation has the latest protection against emerging threats.

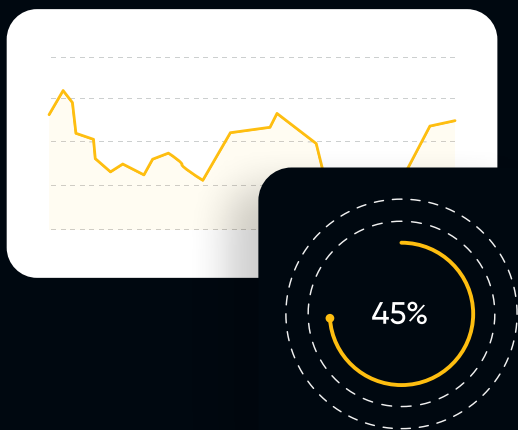

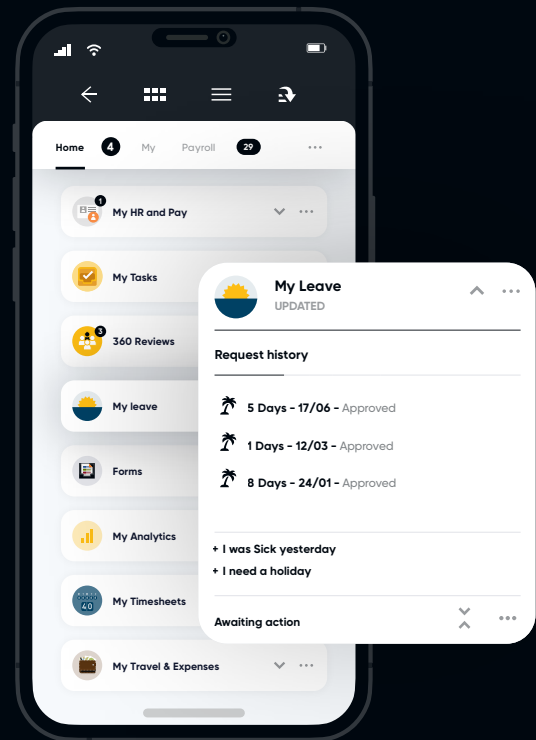

TechnologyOne is an industry-leader in cyber security, with the above security compliance certificates.

Our ~~code~~ no-code configuration

Tailor our solution for your specific needs with no programming or coding required.

Discover deep functionality for your organisation through an application that adapts to suit your unique needs. CiA is designed to seamlessly integrate with your systems to deliver an interconnected and unparalleled user experience.

Unleash streamlined functionality and cutting-edge efficiency for your organisation with faster time to value.

Real-time dashboards

Organisations must make strategic decisions to future-proof and give themselves a competitive edge.

Thrive in the face of challenges with dashboards that integrate and streamline real-time data to inform future spending and strategic decision-making.

Empower your organisation by improving efficiencies and eliminating manual and duplicated processes, reducing costs and empowering your staff to focus on your community.

SaaS+

With SaaS Plus TechnologyOne, delivers an end-to-end, customer centric solution so you can focus on serving your community.

Maximising our 'Power of One' promise, we're leveraging our unique domain expertise and taking full responsibility for the whole solution experience - reducing risk and saving you time and money.

One plan, one price, one point of call. SaaS Plus delivers:

- An all-inclusive offering tailored to the industries we serve.
- All aspects of TechnologyOne's enterprise solution.
- A single yearly fee covering all costs to implement, run, support and upgrade the solution.

Why SaaS Plus?

SaaS Plus is designed to help solve the three greatest impediments to digital transformation: time-to-value, cost, and complexity. It provides customers with a one-stop-shop, reducing much of the complexity, duplication and risk traditionally involved in ERP projects.

TechnologyOne takes complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer, to guarantee long-term success.

SaaS Plus provides:

- Quantified scope, outcomes and approach
- Improved time-to-value – faster ROI
- Reduced project and organisational risk
- Platform for growth and business efficiency gains
- Accelerated path to a continuous improvement model

Our people

At TechnologyOne, we believe in fostering a culture of innovation, creativity, and collaboration, and have created an environment that allows our people to thrive. This culture is built into the fabric of our business, driving high performance, and underpinning our success.

Our global team of more than 1,300 passionate individuals forms the backbone of our operations. At the heart of our workforce are our more than 400 developers, powering one of the largest Australian-owned Research and Development (R&D)

centres for enterprise software. In addition to our R&D centres in Brisbane and Perth, we have offshore centres in Indonesia and Vietnam, extending our capabilities to better support our customers and products.

Our developers are leaders in their field who challenge conventional thinking and go beyond the traditional realms of development methodology.

Driven by a commitment to solving complex business problems for our customers, our team has delivered

a massively broad and deep global SaaS ERP solution, competing and triumphing against multinational giants with tens of thousands of staff.

Our customers are our true north guiding the decisions we make, the people we employ and the processes we create. We continue to invest in our Compelling Customer Experience program, which gives our people the ongoing training and support they need to deliver outstanding customer experiences.

About TechnologyOne

TechnologyOne is a global Software as a Service (SaaS) company. Founded in Australia, we have offices across six countries. Our enterprise SaaS solution transforms business and makes life simple for our customers by providing powerful, deeply integrated enterprise software that is incredibly easy to use. Over 1,300 leading corporations, government departments and statutory authorities are powered by our software.

Our global SaaS solution provides deep functionality for the markets we serve, including local government and higher education in the UK. For these markets we invest significant funds each year in R&D. We also take complete responsibility to market, sell, implement, support and run our solutions for our customers, which reduce time, cost and risk.
