Enterprise Asset Management

Getting the most out of your assets can be daunting, but there is a way to maximise efficiency

Introducing TechnologyOne's Enterprise Asset Management, an integrated solution providing you with full visibility into the cost and performance of every asset, helping you to make evidence-based investment decisions.

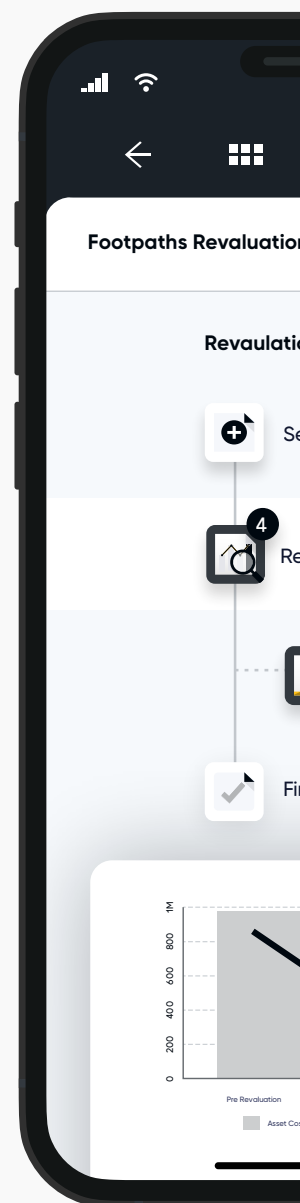

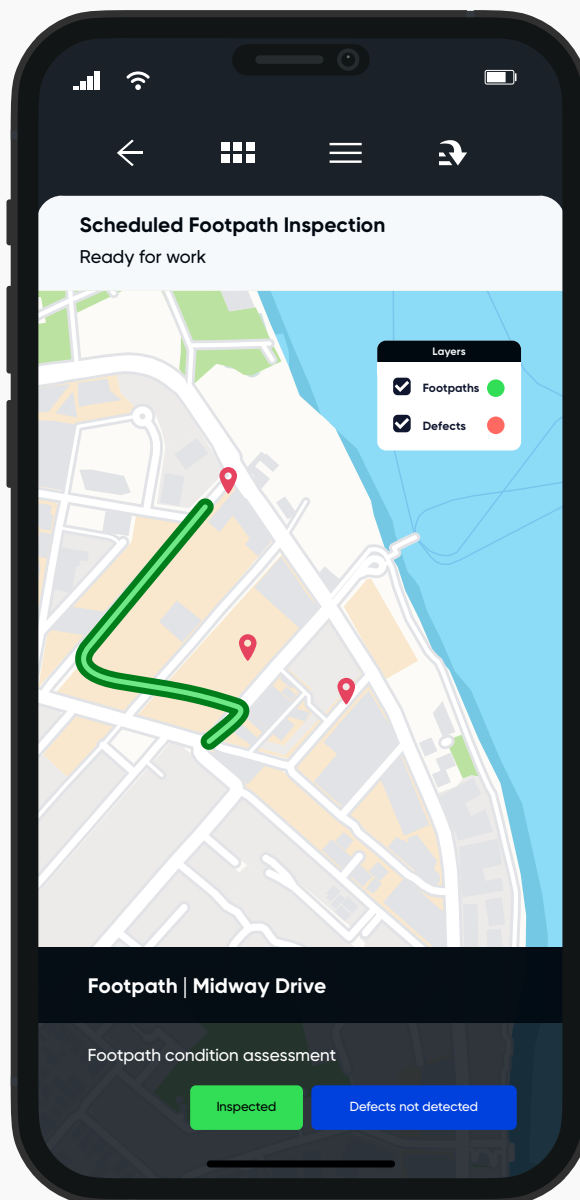

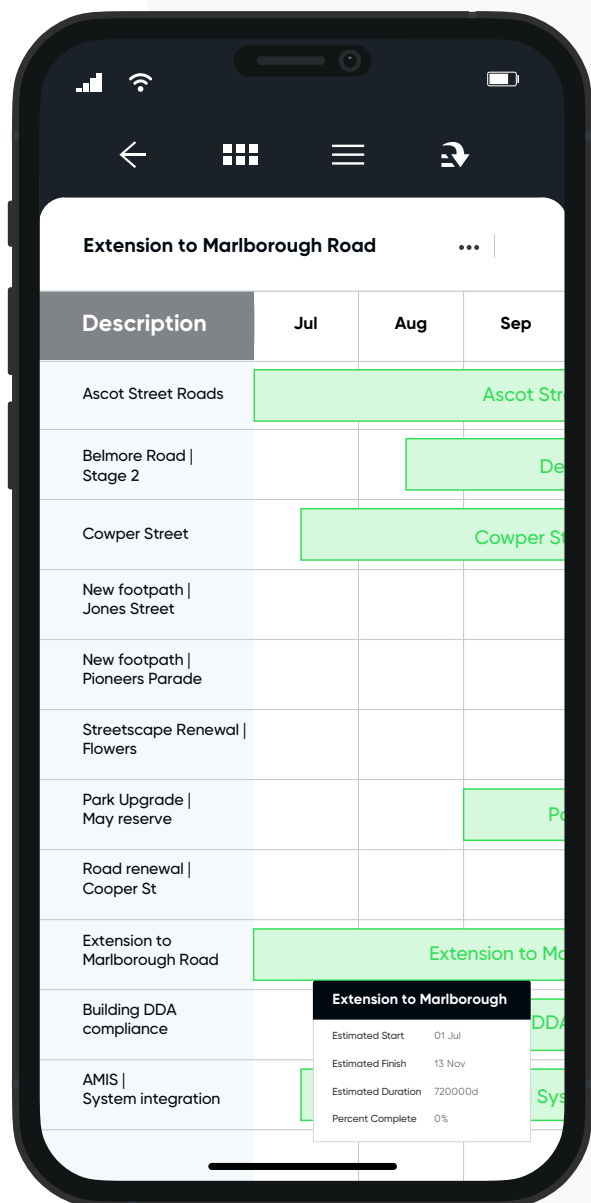

In today's rapidly evolving landscape, organisations face many challenges including complex asset portfolios with varying maintenance needs, lifecycles and regulatory requirements, ageing infrastructure requiring increased maintenance, and cost pressures requiring them

to balance the need for asset maintenance and replacement with budget constraints.

With sprawling infrastructure and diverse operations, efficient asset management is pivotal for organisations to optimise resources, enhance productivity

and ensure regulatory compliance.

Gaining full visibility over all assets enables more efficient resource allocation, cost savings and enhances asset reliability and longevity.

"We identified that we could save just under half a million dollars per annum across a range of areas by implementing TechnologyOne's Enterprise Asset Management solution.

We solve the complex to simplify life for our community

With more than 37 years' experience, TechnologyOne has pioneered Software as a Service (SaaS) for local government and higher education, empowering communities with mission-critical solutions.

Our deep understanding and engagement with our key markets means we are able to deliver integrated, preconfigured solutions that provide proven practice, streamline implementation and reduce time, cost and risk for our customers.

We are the only company offering true global SaaS solutions, harnessing industry expertise, innovative technology and user-centred design to present unparalleled digital experiences.

Our global software enables our customers to embrace the digital revolution and an exciting new world of possibilities in a cloud-first, mobile-first world.

Over 1,300 large-scale companies, government departments and higher education institutions across the globe are supported by TechnologyOne solutions.

Future-proof your organisation with a **true SaaS** solution

Reinvent your system in a way no legacy software can – Software as a Service (SaaS) leverages the latest technology to deliver speed, security and scalability for your community.

SaaS delivers a mission-critical solution that empowers your organisation to provide compelling digital experiences – on any device, anywhere, at any time.

Only through the power of SaaS can your organisation embrace cutting-edge simplicity that offers a single source of truth and ensures your

systems are guarded with defence-level security.

With continual upgrades, including two yearly major releases and weekly patches, empower your community with a best-in-class solution in an ever-changing environment.

See the bigger picture

Gain full visibility into the cost and performance of every asset with one holistic view of your data so you can put your resources to the best possible use.

Make smarter decisions

Make informed, evidence-based asset management decisions with rich comprehensive data insights.

Improve operational efficiency

Streamline asset tracking and maintenance workflows, automate work order management and enhance resource allocation on any device, anywhere, at any time.

Be proactive

Proactively manage your assets ensuring timely maintenance, reducing downtime and minimising unexpected failures and costly replacements.

Enhance regulatory compliance

Ensure your organisation maintains compliance with industry standards and regulations with robust documentation and powerful data insights.

Lightning fast time to value

Our preconfigured solution is designed to increase your time to value with accelerated implementation while delivering improved effectiveness and efficiencies.

Always up-to-date

Your organisation will be at the forefront of innovation with continual and automatic upgrades and releases all covered by one annual fee.

Secure & scalable

The highest security and privacy measures and scalability for future growth. Trusted by top Australian and New Zealand governments, authorities, businesses and education providers, our stringent cyber security safeguards data and protects your systems.

Maximise efficiency, minimise asset complexity

Maximise the value and performance of your assets through their entire lifecycle with a comprehensive asset management solution that enables you to effectively meet your goals.

From day-to-day operations to long-term asset planning, use one holistic view to increase asset life, reduce risk and build operational excellence.

Tap into a world of efficiencies in portability, automation, workflow, integration, and reporting and analysis that support evidence-based decision-making processes.

Enterprise Asset Management

Asset Operations and Maintenance

Manage your operations more effectively with full visibility into the cost and performance of every asset.

- Operate and maintain assets to meet regulatory and service standards.
- Manage work programs efficiently to minimise asset failure and increase availability.
- Create a digitised approach to collecting and managing data in the field to improve data validity, consistency, and accuracy.

Project Lifecycle Management

Take a strategic approach to your projects from prioritisation and optimisation through to delivery.

- Gain a single source of truth for all project management information and activities.
- Prioritise and optimise projects based on funding constraints and strategic priorities.
- Tailor and deliver projects based on best-practice project governance methodologies.

Strategic Asset Management

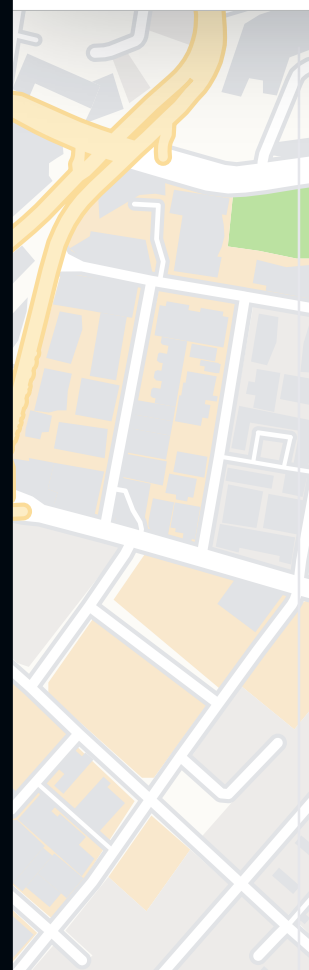

Make informed, evidence-based asset investment decisions with rich, comprehensive data insights to guide you and fulfill long-term infrastructure objectives.

- Manage long-term asset strategies and forecast future infrastructure needs, plan for upgrades or replacements and mitigate risk through comprehensive data insights.
- Plan and analyse future investments based on agreed service levels, risk profiles, asset condition, function, capacity, and utilisation.
- Condition-based asset valuation and Remaining Useful Life calculation.

The highest level of cyber security

Secure your digital environment and reputation against threats with stringent protection across your systems.

Through the power of SaaS, continuous and automatic upgrades ensure your organisation has the latest protection against emerging threats.

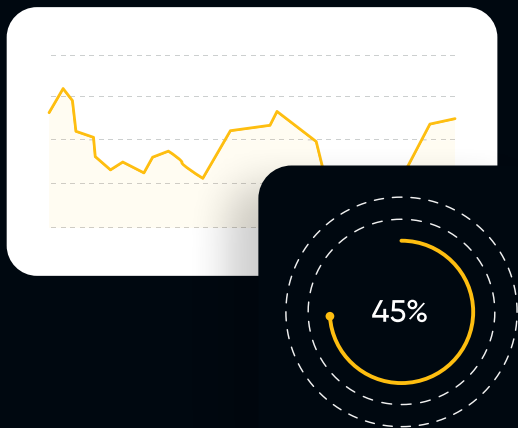

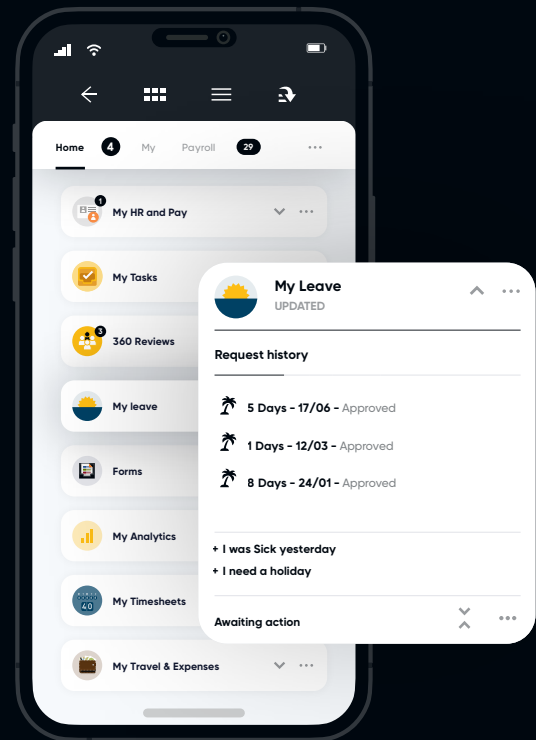

TechnologyOne is an industry-leader in cyber security, with the above security compliance certificates.

Our ~~code~~ no-code configuration

Tailor our solution for your specific needs with no programming or coding required.

Discover deep functionality for your organisation through an application that adapts to suit your unique needs. CiA is designed to seamlessly integrate with your systems to deliver an interconnected and unparalleled user experience.

Unleash streamlined functionality and cutting-edge efficiency for your organisation with faster time to value.

Real-time dashboards

Organisations must make strategic decisions to future-proof and give themselves a competitive edge.

Thrive in the face of challenges with dashboards that integrate and streamline real-time data to inform future spending and strategic decision-making.

Empower your organisation by improving efficiencies and eliminating manual and duplicated processes, reducing costs and empowering your staff to focus on your community.

SaaS+

With SaaS Plus TechnologyOne, delivers an end-to-end, customer centric solution so you can focus on serving your community.

Maximising our 'Power of One' promise, we're leveraging our unique domain expertise and taking full responsibility for the whole solution experience - reducing risk and saving you time and money.

One plan, one price, one point of call. SaaS Plus delivers:

- An all-inclusive offering tailored to the industries we serve.
- All aspects of TechnologyOne's enterprise solution.
- A single yearly fee covering all costs to implement, run, support and upgrade the solution.

Why SaaS Plus?

SaaS Plus is designed to help solve the three greatest impediments to digital transformation: time-to-value, cost, and complexity. It provides customers with a one-stop-shop, reducing much of the complexity, duplication and risk traditionally involved in ERP projects.

TechnologyOne takes complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer, to guarantee long-term success.

SaaS Plus provides:

- Quantified scope, outcomes and approach
- Improved time-to-value – faster ROI
- Reduced project and organisational risk
- Platform for growth and business efficiency gains
- Accelerated path to a continuous improvement model

Our people

At TechnologyOne, we believe in fostering a culture of innovation, creativity, and collaboration, and have created an environment that allows our people to thrive. This culture is built into the fabric of our business, driving high performance, and underpinning our success.

Our global team of more than 1,300 passionate individuals forms the backbone of our operations. At the heart of our workforce are our more than 400 developers, powering one of the largest Australian-owned Research and Development (R&D)

centres for enterprise software. In addition to our R&D centres in Brisbane and Perth, we have offshore centres in Indonesia and Vietnam, extending our capabilities to better support our customers and products.

Our developers are leaders in their field who challenge conventional thinking and go beyond the traditional realms of development methodology.

Driven by a commitment to solving complex business problems for our customers, our team has delivered

a massively broad and deep global SaaS ERP solution, competing and triumphing against multinational giants with tens of thousands of staff.

Our customers are our true north guiding the decisions we make, the people we employ and the processes we create. We continue to invest in our Compelling Customer Experience program, which gives our people the ongoing training and support they need to deliver outstanding customer experiences.

About TechnologyOne

TechnologyOne is a global Software as a Service (SaaS) company. Founded in Australia, we have offices across six countries. Our enterprise SaaS solution transforms business and makes life simple for our customers by providing powerful, deeply integrated enterprise software that is incredibly easy to use. Over 1,300 leading corporations, government departments and statutory authorities are powered by our software.

Our global SaaS solution provides deep functionality for the markets we serve, including local government and higher education in the UK. For these markets we invest significant funds each year in R&D. We also take complete responsibility to market, sell, implement, support and run our solutions for our customers, which reduce time, cost and risk.
