Timetabling & Scheduling

Building a timetable can be complex. But it doesn't have to be.

Introducing TechnologyOne's Timetabling & Scheduling, designed to enhance student and staff experiences by optimising and streamlining class scheduling, resource booking and exam scheduling to future-proof your institution.

Prioritise staff and student satisfaction while effectively managing competing demands on academic resources with our sophisticated scheduling and resource management solution built for academic institutions.

Simplify complex scheduling and enhance the student experience with our powerful and intuitive tools.

Make the most of your resources by empowering staff and students to easily create and manage their own room and resource bookings, reducing the administration burden on staff, saving time and money.

Streamline your academic institution's processes today with flexible scheduling for any type of course or programme, on an individual, group, class or course level.

With powerful automated features, our software does the heavy lifting.

"We've been able to increase engagement because the screens look so fantastic and really have that 'wow' factor."

STAFFORDSHIRE UNIVERSITY

Complex scheduling made simple

Managing people, places, and resources effectively across multiple faculties and sites is one of the biggest challenges faced by educational institutions.

Creating an education timetable is complex, but our tools ensure maximum efficiency, allowing institutions and providers to focus on delivering compelling student and staff experiences, academic excellence, and strategic planning. Streamlining scheduling and resource allocation saves precious time and money.

Foster a more organised and responsive learning and teaching environment, improving the experience for both students and staff while allowing you to focus on your core mission.

Increase student satisfaction
Deliver an exceptional experience by enabling students to seamlessly manage class and exam schedules, book resources and communicate easily with staff. Integrating class and exam timetables into personal calendars ensures that information and updates are quickly communicated directly to students' devices, supporting student success.

Improve staff experience
Optimise staff workloads and easily manage staff changes associated with flexible working requests. Online personalised timetables can feed directly into Outlook 365 to enable a complete overview of all diary commitments.

Be confident in your decision making
Have actionable insights at your fingertips any time, anywhere on any device to enable your institution to make evidence-based decisions with our powerful reporting and analytics tools.

Improve efficiency
Optimise resource utilisation by simplifying the booking of all resource types to maximise usage across your institution.

Enhance sustainability
Achieve an energy efficient campus by optimising room usage and future-proof campuses with our powerful scenario planning features.

Always up-to-date
Your organisation will be at the forefront of innovation with continual and automatic upgrades and releases all covered by oneannual fee.

Secure & scalable
The highest security and privacy measures and scalability for future growth. Trusted by top Australian and New Zealand governments, authorities, businesses and education providers, our stringent cyber security safeguards data and protects your systems.

Timetabling & Scheduling

Class Scheduling

Smarter Planning, Seamless Delivery

TechnologyOne's Class Scheduling solution enables institutions to create, manage, and optimise academic timetables with ease. It combines automated (AI assisted) and manual scheduling tools to build clash-free timetables for students, staff, and resources. Key capabilities include:

- Auto-allocation of planning students to activities to support a clash-free timetable
- Preference setting for institutional control of the outcomes
- Multi-resource and staff assignment
- Real-time timetable views by staff, location, or student group
- Export and print options for flexible access
- Bulk updates - Timetable Bulk Processing
- Guided change management - Timetable Change Management

Empower your teams to deliver clash-free, accurate, balanced schedules—faster and with less effort.

Exchange Connect

One Calendar. Total Clarity

Exchange Connect syncs scheduled activities from Class Scheduler directly into Outlook calendars, giving staff and students a single, reliable view of their academic and professional commitments. Free/busy visibility ensures accurate availability across the institution.

Fully integrated with Class Scheduler, it simplifies communication and keeps everyone in sync.

Exchange Locations

Seamless Sync, Smarter Booking

Exchange Locations provides real-time synchronisation between Microsoft Outlook and Resource Booker, ensuring consistent location availability across both systems. Prevent double bookings and choose Resource Booker as your primary booking tool with confidence.

Fully integrated with Resource Booker, it keeps your scheduling accurate, connected, and effortless.

Timetable Requirements Collector

Smarter Data Collection for Smarter Scheduling

Timetable Requirements Collector streamlines the collection and validation of scheduling data—supporting rollover, new inputs, or full data refreshes. Integrated with Class Scheduler, it enables real-time data collection while scheduling continues uninterrupted. Customisable workflows and approvals ensure data accuracy before timetables are built

Staff Availability Collector

- Easily gather and validate staff availability, with rollover support and approval workflows.

Programs of Study Collector

- Collect and confirm mandatory and optional modules for each program, ensuring accurate

Resource Booker

Simple, Smart, Self-Service Booking

TechnologyOne's Resource Booker enables staff and students to book rooms, equipment, and facilities instantly—anytime, anywhere. From parking spaces to microscopes, any combination of resources can be made available and booked in one intuitive platform.

Customisable booking rules ensure fair access, with options like lead time limits and time-based quotas to manage demand effectively.

Resource Booker reduces administrative burden and frees up your scheduling teams and support staff to focus onhigher-value work, making smarter use of your team's time.

Resource Booker Touch

Real-Time Visibility, Instant Access

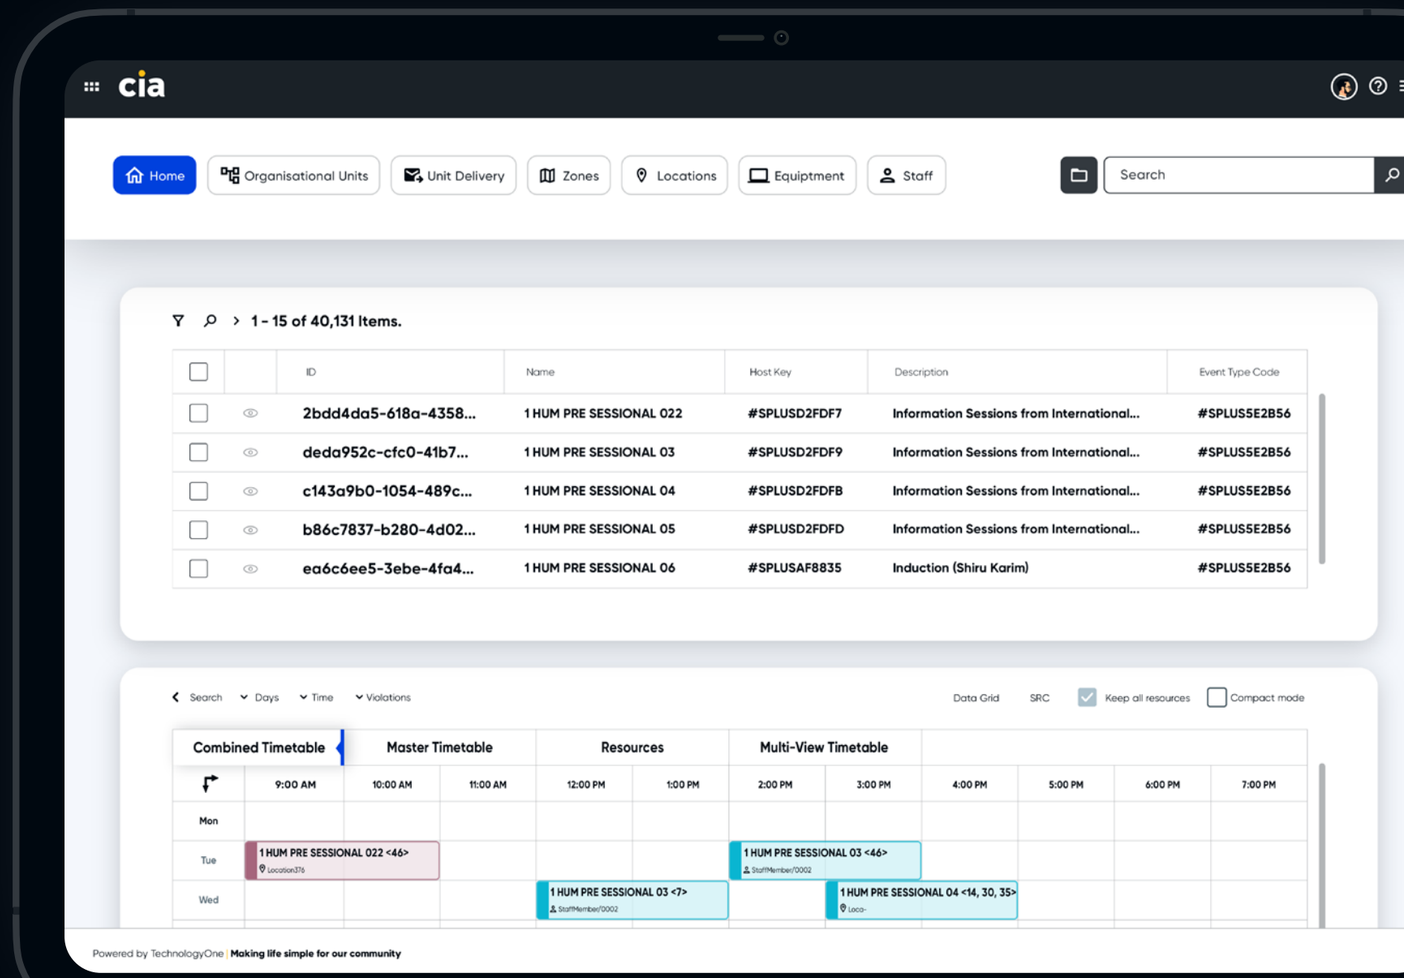

Resource Booker Touch brings your booking system to life with interactive touch-screen panels. Staff and students can view live room availability, make instant walk-up bookings using a QR code, and checkin—all from a sleek, wall-mounted display.

Fully connected to Resource Booker, it ensures real-time display and prevents double bookings—maximising space usage and enhancing the campus experience.

Exam Scheduler

Smarter Planning, Fairer Outcomes

TechnologyOne's Exam Scheduling solution simplifies the creation of accurate, conflict-free exam timetables. With automated scheduling, seat assignment, and invigilator rostering, institutions can deliver efficient, student-friendly exam experiences.

Key capabilities include:

- Auto and manual exam scheduling
- Invigilator rostering basedon availability
- Seat assignment for individual students
- Support for special provisions and mock exams
- Real-time timetable updates and notifications
- Ensure every exam runs smoothly—with less effort and greater confidenc

Publish

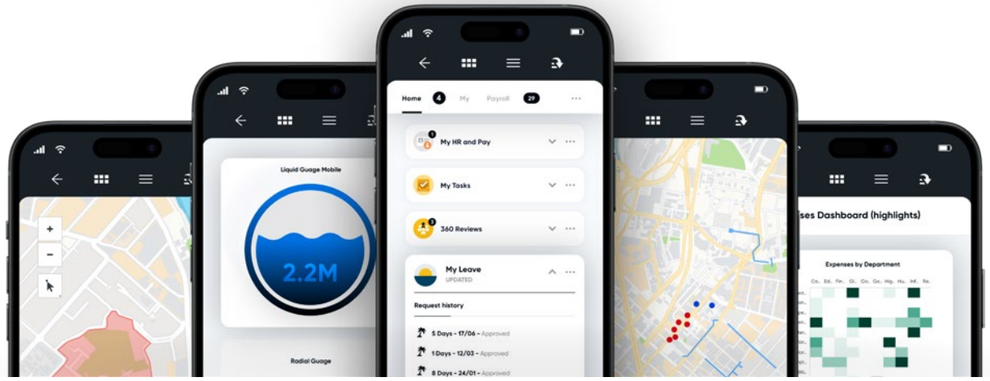

Always Accurate, Always Accessible

Publish gives staff and students instant access to the latest timetable information across any device. With automatic iCal feeds, users can sync schedules directly to calendar apps like Outlook, Google Calendar, and Apple Calendar.

Administrators maintain full control over which timetable types are available to different user groups. Seamlessly displays class and exam timetables, Publish ensures everyone stays informed—no missed classes, no outdated information.

Publish can be managed by administrators to display open timetable information to visitors and personalised information to staff and students with a login.

Future-proof your organisation with a true SaaS solution

Reinvent your system in a way no legacy software can – Software as a Service (SaaS) leverages the latest technology to deliver speed, security and scalability for your community.

SaaS delivers a mission-critical solution that empowers your organisation to provide compelling digital experiences – on any device, anywhere, at any time.

Only through the power of SaaS can your organisation embrace cutting-edge simplicity that offers a single source of truth and ensures your systems are guarded with defence-level security.

With continual upgrades, including two yearly major releases and weekly patches, empower your community with a best-in-class solution in an ever-changing environment.

We solve the complex to simplify life for our community

Since 1987, TechnologyOne has pioneered Software as a Service (SaaS) for local government and higher education, empowering communities with mission-critical solutions.

Our deep understanding and engagement with our key markets means we are able to deliver integrated, preconfigured solutions that provide proven practice, streamline implementation and reduce time, cost and risk for our customers.

We are the only company offering true global SaaS solutions, harnessing industry expertise, innovative technology and user-centred design to present unparalleled digital experiences.

Our global software enables our customers to embrace the digital revolution and an exciting new world of possibilities in a cloud-first, mobile-first world.

Over 1,300 large-scale companies, government departments and higher education institutions across the globe are supported by TechnologyOne solutions.

SaaS+

With SaaS+ TechnologyOne, delivers an end-to-end, customer–centric solution so you can focus on serving your community.

Maximising our 'Power of One' promise, we're leveraging our unique domain expertise and taking full responsibility for the whole solution experience - reducing risk and saving you time and money.

One plan, one price, one point of call. SaaS+ delivers:

- An all-inclusive offering tailored to the industries we serve.
- All aspects of TechnologyOne's enterprise solution.
- A single yearly fee covering all costs to implement, run, support and upgrade the solution.

Why SaaS+?

SaaS+ is designed to help solve the three greatest impediments to digital transformation: time-to-value, cost, and complexity. It provides customers with a one-stop-shop, reducing much of the complexity, duplication and risk traditionally involved in ERP projects.

TechnologyOne takes complete responsibility for building, marketing, selling, implementing, supporting and running our enterprise solution for each customer, to guarantee long-term success.

SaaS+ provides:

- Quantified scope, outcomes and approach
- Improved time-to-value – faster ROI
- Reduced project and organisational risk
- Platform for growth and business efficiency gains
- Accelerated path to a continuous improvement model

Our people

At TechnologyOne, we believe in fostering a culture of innovation, creativity, and collaboration, and have created an environment that allows our people to thrive. This culture is built into the fabric of our business, driving high performance, and underpinning our success.

Our global team of more than 1,300 passionate individuals forms the backbone of our operations. At the heart of our workforce are our more than 400 developers, powering one of the largest Australian-owned Research and Development (R&D) centres for enterprise software. In addition to our R&D centres in Brisbane and Perth, we have offshore centres in Indonesia and Vietnam, extending our capabilities to better support our customers and products.

Our developers are leaders in their field who challenge conventional thinking and go beyond the traditional realms of development methodology.

Driven by a commitment to solving complex business problems for our customers, our team has delivered a massively broad and deep global SaaS ERP solution, competing and triumphing against multinational giants with tens of thousands of staff.

Our customers are our true north guiding the decisions we make, the people we employ and the processes we create. We continue to invest in our Compelling Customer Experience program, which gives our people the ongoing training and support they need to deliver outstanding customer experiences.

Making life simple
for our community

About TechnologyOne

TechnologyOne is a global Software as a Service (SaaS) company. Founded in Australia, we have offices across six countries. Our enterprise SaaS solution transforms business and makes life simple for our customers by providing powerful, deeply integrated enterprise software that is incredibly easy to use. Over 1,300 leading corporations, government departments and statutory authorities are powered by our software.

Our global SaaS solution provides deep functionality for the markets we serve, including local government and higher education in the UK. For these markets we invest significant funds each year in R&D. We also take complete responsibility to market, sell, implement, support and run our solutions for our customers, which reduce time, cost and risk.
